

Dear Sirs,

I Respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that XM Satellite Radio Provides. It's traffic and weather channels, as well as all of the other programming available are invaluable to me as a long distance driver and traveller.

No other service has been able to completely fill the requirments I have for this type of programming.

Please reject NAB's request to restict XM's choice in programming and any other similar proposals in the future.
